

GEM Track 1 and 3 Grade Conversion (Tartu → ITC and Lund → ITC) for Master's diploma, University of Twente

As part of the M-GEO programme, your grades from the University of Tartu and Lund University are converted to the ITC grading system at the University of Twente. This ensures consistency and fairness, to calculate the course average and especially for *Cum Laude* eligibility on the Master's Diploma awarded by the University of Twente.

Key Points

- The GEM Consortium decided to take the average comparable grade of overlapping ranges in the table below.
- Both original and converted grades are recorded in the student information system of the University of Twente: **OSIRIS**.
- Conversion follows the [ECTS Users' Guide 2015](#) (page 40), the [GEM Grade equivalence document](#), which is published on the GEM Programme Website, section Diploma documents and the [M-GEO EER](#).
